## PRODUCT BULLETIN

<b>Product(s):</b>	Narkomed 6000
<b>Bulletin Number:</b>	110
<b>Release Date:</b>	October 9, 2000
<b>Pages:</b>	2

### **Subject: Narkomed 6000 Integrated Patient Monitoring and Strip Chart Recorder**

The Narkomed 6000 Integrated Patient Monitor and Strip Chart Recorder are both released for sale. The Narkomed 6000 Integrated Patient Monitor provides the additional parameters of ECG, ST segment analysis, Invasive Blood Pressure, Pulse Oximetry, Temperature, Cardiac Output, and Non-Invasive blood pressure in addition to Airway Pressure, Volume, Oxygen, CO<sub>2</sub>, and Agent all displayed on the Narkomed 6000's single flat panel monitoring screen.

The Narkomed 6000 Integrated Monitoring Module is located on the side of the Narkomed 6000 Series anesthesia workstation just above the respiratory gas analyzer. This module can be retrofitted to existing Narkomed 6000 anesthesia machines. A product bulletin for an Integrated Patient Monitor retrofit kit will follow. The Narkomed 6000 Strip Chart Recorder is a dual channel strip chart recorder located just below the Narkomed 6000 series workstation's main monitoring screen. The Strip Chart Recorder can also be added to existing Narkomed 6000 anesthesia workstations and is included in the Integrated Patient Monitoring retrofit kit.

When placing an order for a new machine, reference the following:

<b>Description</b>	<b>Part Number</b>	<b>List Price</b>
Integrated Patient Monitor	4116308	\$20,125.00
Strip Chart Recorder*	4116309	\$ 3,500.00

*\*Please note that the Strip Chart Recorder Option is a separate line item on a new machine order*

#### **Included with an Order of the Narkomed 6000 Integrated Patient Monitor is an Accessories Startup kit which includes:**

- ECG cable with RF choke
- 5 ECG lead wire set with grabbers
- Temperature cable (400 YSI) and Probe
- SPO<sub>2</sub> Interface Cable and finger sensor
- NIBP Interface Cable and Adult Cuff

Please reference the Narkomed 6000 series Anesthesia Workstation price list or the Marketing Library for order information regarding additional accessories for cardiac output, invasive blood pressure,

ECG, temperature, non-invasive blood pressure and SPO2.

The Integrated Patient Monitor's original release will include 2 pre-configured monitoring screen options.

### A 6 waveform screen to display:

- 2 ECG Waveforms (leads selectable)
- 1 IBP waveform (site selectable)
- 1 SPO2 waveform
- 1 Airway pressure waveform
- 1 CO2 waveform

Numeric boxes for ECG, ST segment analysis, Invasive Blood Pressure, SPO2, Airway Pressure, CO2, Oxygen, Agent, Volume, Temperature, Cardiac Output, Non-Invasive Blood Pressure.

### An 8 waveform screen to display:

- 2 ECG Waveforms (leads selectable)
- 3 IBP waveforms (sites selectable)
- 1 SpO2 waveform
- 1 Airway pressure waveform
- 1 CO2 waveform

Numeric boxes for ECG, ST segment analysis, Invasive Blood Pressure, SPO2, Airway Pressure, CO2, Oxygen, Agent, Volume, Temperature, Cardiac Output, Non-Invasive Blood Pressure.
